

MIO-FESTLEGUNG: IMPFPASS

FESTLEGUNG GEMÄSS § 355 ABSATZ 1 SGB V

KASSENÄRZTLICHE
BUNDESVEREINIGUNG

VERSION: 1.1.0

Gemäß § 355 Abs. 1 SGB V trifft die KBV die notwendigen Festlegungen für die Inhalte der elektronischen Patientenakte nach § 341 SGB V, um deren semantische und syntaktische Interoperabilität zu gewährleisten. Die Festlegung erfolgt in einem strukturierten Prozess gemäß der Verfahrensordnung im Benehmen mit Organisationen des Gesundheitswesens.

Der Vorstand der KBV trifft folgende Festlegung:

ARTIKEL 1 - ÜBERGREIFENDE FESTLEGUNGEN ZU FHIR®

Übergreifend für alle FHIR®-Ressourcen gelten die nachfolgenden Festlegungen:

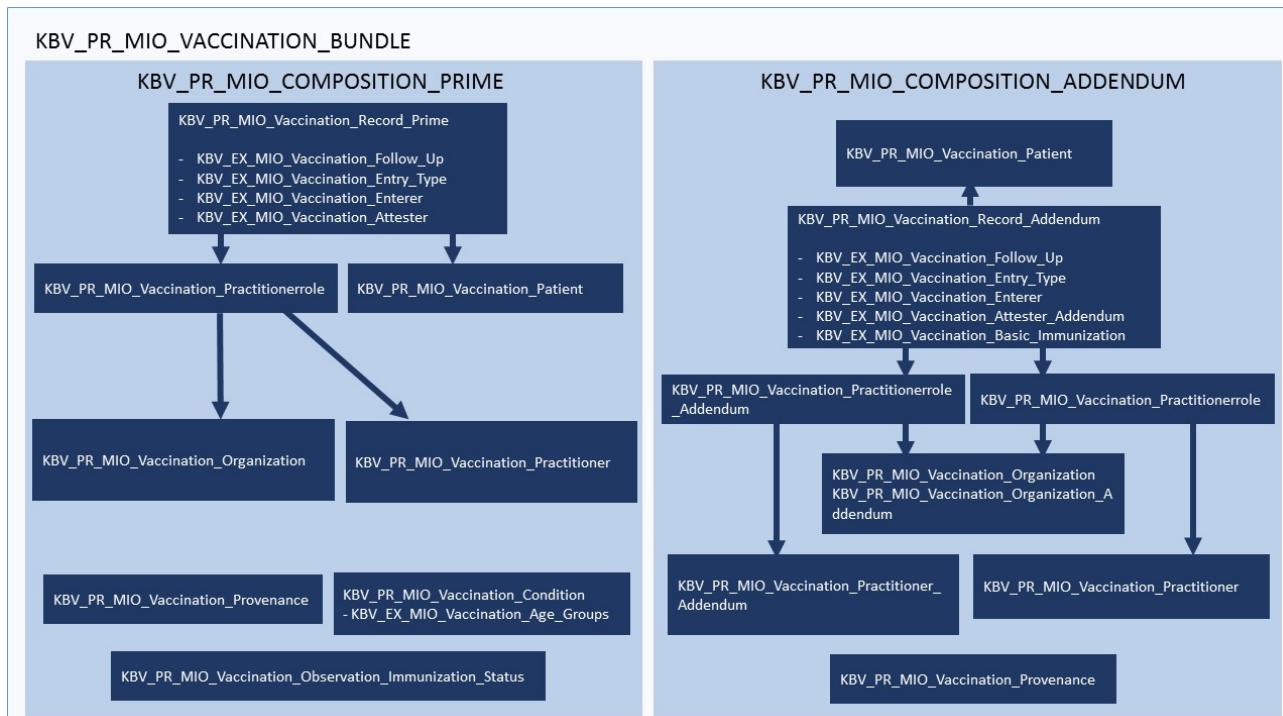

- In der ePA zu speichernde FHIR®-Ressourcen
- Format der FHIR®-Ressourcen
- Must-Support

1. FESTLEGUNG DER IN DER EPA ZU SPEICHERNDEN FHIR®-RESSOURCEN

Das Bundle (*KBV_PR_MIO_Vaccination_Bundle_Entry*) ist die einzige Ressource, welche in der elektronischen Patientenakte (ePA) als medizinisches Informationsobjekt Impfpass gespeichert werden darf. Für diese an die ePA zu übertragende FHIR®-Ressource muss für die Umsetzung des Anwendungszenarios Daten eintragen eine Composition gemäß Profil *Composition_Prime* enthalten sein. Für diese an die ePA zu übertragende FHIR®-Ressource muss für die Umsetzung des Anwendungszenarios Daten nach- oder übertragen eine Composition gemäß Profil *Composition_Addendum* enthalten sein.

Die Compositions *KBV_PR_MIO_Vaccination_Composition_Prime* und *KBV_PR_MIO_Vaccination_Composition_Addendum* geben die Struktur des Dokumentes vor. Die Inhalte bestehen aus Verweisen auf andere Ressourcen. Da ein Dokument im juristischen Sinne vollständig und unveränderlich sein muss, wird die Composition mit allen referenzierten Ressourcen zu einem Bundle zusammengefasst (*KBV_PR_MIO_Vaccination_Bundle_Entry*).

Dieses festgelegte Zusammenspiel der Bundle, Composition und anderen FHIR®-Profilen stellen die nachfolgenden Abbildungen grafisch dar.

2. FESTLEGUNG DES FORMATS DER FHIR®-RESSOURCEN

Die in der elektronischen Patientenakte (ePA) zu speichernden FHIR®-Ressourcen weisen ein XML-Format gemäß FHIR®-Spezifikation R4 auf.

3. FESTLEGUNG ZUR NUTZUNG VON MUST-SUPPORT

Als Must-Support deklarierte Elemente müssen durch jedes System, welches diese Spezifikation implementiert, unterstützt werden. Das bedeutet, dass das jeweilige System diese interpretieren und verarbeiten können muss. Die Deklarierung als Must-Support wird, wie in der Beispielabbildung dargestellt, durch eine rotes S gekennzeichnet.

Beispielabbildung

ARTIKEL 2 - FESTLEGUNG DER FHIR®-RESSOURCEN

1. KBV_PR_MIO_VACCINATION_RECORD_PRIME

ARTIKEL 3 - FESTLEGUNGEN ZUR SIGNATUR

Wenn eine Signatur des medizinischen Informationsobjektes Impfpass notwendig ist, erfolgt dies mittels der CAES-Enveloping Signaturfunktionalität des Konnektors der Telematikinfrastruktur. Die in diesem Zusammenhang vom Primärsystem (= eingesetztes IT-System) als Data To Be Signed Representation (DTBSR) zusammenzustellenden Daten ist eine FHIR-XML-Datei und entspricht dabei der gemäß dem Abschnitt In der ePA zu speichernde FHIR®-Ressourcen einer Bundle-Ressource mit der Profilierung KBV_PR_MIO_Vaccination_Bundle_Entry.

Bei der Eintragung von Daten zu durchgeführten Impfungen (entsprechend des §22 IfSG) muss eine Signatur von der verantwortlichen Person gesetzt werden (siehe auch Anwendungsszenario Daten eintragen). Um

diesen Fall handelt es sich immer, wenn das Eintragen einer oder mehrerer Impfzeilen durch die ärztliche Person, welche die Impfung gerade durchgeführt hat, erfolgt. In allen anderen Anwendungsfällen (d.h. dem Daten nachtragen bzw. übertragen siehe auch Anwendungsszenario Daten nach- oder übertragen) kann eine Signatur (von der eintragenden Person) gesetzt werden.

Bei der Signatur handelt es sich um eine qualifizierte elektronische Signatur (QES) mit einem elektronischen Heilberufeausweis oder um ein qualifiziertes elektronisches Siegel.

Das Verfahren zur Erstellung der Signatur wird die gematik im Dokument "Implementierungsleitfaden Primärsysteme - Elektronische Patientenakte (ePA)" (gemILF_PS_ePA) beschreiben.

ARTIKEL 4 - INKRAFTTREten, GELTUNG UND AUSSERKRAFTTREten

Diese Festlegung tritt am Tag nach ihrer Veröffentlichung in Kraft. Sie gilt ab dem 01.01.2022.

Die MIO-Festlegung: Impfpass in der Version 1.0 tritt am Tag der Veröffentlichung dieser Version außer Kraft.
